

CYBERSIZZLE Fuel Conditioner / Eco Fuel Saver - Business for Sale

For several years the owner of K&J Services have used and operated Cybersizzle & CybersizzleFuel.Co.Uk alongside other business activities.

Now wishing to wind down in the years leading up to retirement they have decided to restructure the business activities they are involved with, which includes the disposal of the following :-

- 1) Website Domain Ownerships cybersizzle.co.uk & cybersizzlefuel.co.uk & related content such as scripts, images etc. However, a new owner may wish to consider setting up new shopping cart software as the "Opencart" framework used currently is quite an old version, even though very functional.
- 2) Stock of all types of Cybersizzle - (Some Re-labelling and packaging may be required.)
- 3) Instruction leaflets to send out with the product.
- 4) Two types of marketing leaflets - will require relabelling with new business owners details.
- 5) Recent customer email addresses - subject to legal requirements.

Depending on the amount of Stock available at the time of a deal, it is thought that a guide price of £2500 plus would be fair and reasonable.
